PRESERVING VALUES SINCE 1976

The manifesto

Fifty years ago, Quattro Stagioni was born. Since then, each jar has contained not only preserves with authentic flavors but also, moments of life, moments of sharing, and precious memories.

Quattro Stagioni is the silent guardian of our emotions, the thread that unites generations around the table.

Today we celebrate this milestone with gratitude and pride: half a century of quality, innovation, and beauty in glass, which has transformed every preserve into a gesture of care and passion.

The design and ergonomics of the jars continue to inspire creativity and conviviality, bringing tradition into modernity.

Quattro Stagioni is much more than a brand: it is a symbol of family, a treasure trove of emotions that accompanies us, season after season.

Thank you for choosing us to accompany you on this journey spanning half a century.

## FRIGOVERRE SMART The beauty of easy storage

# Frigoverre Smart

## THE BEAUTY OF EASY STORAGE

### Glass container market trends

- ✓ **A growing market: CAGR 2025/2032 = 7.85% worldwide.**
  - **Environmental awareness:** Consumers are more aware of the environmental and economic implications of food waste, leading to increased demand for eco-friendly and sustainable containers.
  - **Home meal preparation on the rise:** This creates specific needs, such as options suitable for microwaving, freezing and takeaway.
  - **Health and wellness:** Growing consumer awareness is driving market growth for materials that are safer for health, such as glass.
- ✓ **64% of European consumers** feel better when they buy products that reduce environmental impact (72% in the 25-35 age group), highlighting an emotional and **personal well-being component associated with eco-friendly purchasing choices.**
- ✓ Despite this growing awareness, there is still what experts call the “**green consumer paradox**”: a cognitive dissonance between the desire to act sustainably and the difficulties in doing so, with barriers such as price.

These assumptions led to the launch of **FRIGOVERRE SMART**, a product that meets all **modern storage needs** with a strong **focus on price positioning**.

# Frigoverre Smart

## THE BEAUTY OF EASY STORAGE

### The goals

- ✓ A new line of containers designed with the aim of launching a **multifunctional product** positioned **between Frigoverre Classic and Frigoverre Evolution**.
- ✓ Designed for one of its main uses: the **microwave**. Thanks to the **valve**, which opens and closes easily, food can be heated **directly from the freezer to the microwave** without removing the lid, always keeping the microwave clean.
- ✓ The valve and silicone gasket are designed to make the container **airtight** and easy to disassemble for practical cleaning and **proper disposal** of the components.
- ✓ A solution that covers all modern storage needs with a **“smart” positioning!**

# Frigoverre Smart

## THE BEAUTY OF EASY STORAGE

The features

**SILICONE  
GASKET and VALVE**  
**Upright valve**  
for microwave use  
**Flat valve**  
for storage

**MAX TRANSPARENCY**  
even for the lid

**TEMPERED GLASS**

# Frigoverre Smart

## THE BEAUTY OF EASY STORAGE

### Main uses

#### **Straight from the freezer to the microwave:**

- thanks to the tempered glass
- with opened valve

#### **In the freezer and refrigerator:**

- ideal sizes to optimize space
- total transparency

#### **In the oven:**

- without lid for heating
- oven off with gradual heating
- max temperature 220°C - 428°F

#### **Airtight:**

- thanks to the silicone seal
- for longer-lasting freshness
- suitable for takeaway

#### **On the table:**

- attractive for table service

#### **Easy to assemble/disassemble**

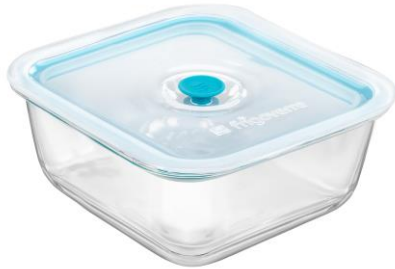

- for maximum hygiene
- for proper disposal

## DYNAMIC MOVING COLOUR: EACH PIECE IS UNIQUE

### Features

#### ✓ Design

Shapes embellished with colour streaks that make each piece unique.  
A style that combines modernity and glassmaking tradition.

#### ✓ Versatility

Two glass sizes (50 cl and 35.5 cl) that are perfect for serving water, cocktails and any other beverage.

A carafe that is ideal for completing the table setting.  
Items that are ideal for any sales channel.

#### ✓ Secure Edge

A thermal process to strengthen the rim of the tumbler :

- Robust and Durable
- Fewer breakages during intensive use
- Reduced need for replacement

*Please note: the colour intensity, resulting from the distribution and fusion of the frit mass during the production process, leads both colour and shape differences.*

*This should not be considered a defect, but a unique characteristic.*

*Each glass and carafe are unique.*

## STEMWARE COLLECTION CELEBRAZIONE

# Celebrazione

## Crafted for Professional Service

### Goal

- **Extend our offerings for banqueting and catering**  
Through a collection of glasses **specifically for this sector**, offering a **design** aligned with current aesthetic trends, enhanced by the **functionality** required by the industry.

# Celebrazione

Crafted for Professional Service

Trend

- **Functionality**

The collection is designed to meet the maximum heights required by professional catering: for practicality, we choose glasses that fall within the dimensions compatible with racks with 1–2 extensions (maximum height ~24 cm). These heights are dictated by standard racks for industrial dishwashers.

# Celebrazione

Crafted for Professional Service  
Features

- **Versatility**  
Four glasses with different capacities to meet all needs during service.

## KITCHENWARE COLLECTION Italian Heritage

# Italian Heritage

A SUGGESTIVE TEXTURE TYPICAL OF ITALIAN TRADITION

*Goal*

- **Support our leadership in the bottle and carafe category** with a collection that captures new trends both in storage and serving, offering a *modern interpretation of the 'Country Home' concept*
- **Widen the target in comparison to Country Home range** with items having a texture that maximizes the transparency and beauty of the glass: *refinement and design* to meet the growing demand for bottles and accessories that are also ideal for enhancing table service at home and in *foodservice*.

# Italian Heritage

## A SUGGESTIVE TEXTURE TYPICAL OF ITALIAN TRADITION

### Trends

#### Home storage and waste reduction still trending strongly

- ✓ Global research by Tetrapack shows that COVID-19 has “rewired” consumers, prompting them to explore ways to become “*better versions of themselves*” and creating a multitude of new habits that are set to last.
- ✓ Among the analyzed aspects, *food* plays a fundamental role because it is perceived as a *central component* of mental well-being: we are witnessing a return to *home cooking*, *preserving* and *waste reduction*.

#### Continued growth in the consumption of tap water at home and in restaurants

- ✓ Italy (2024 survey):
  - 80% of Italians drink tap water (+10% in the last 12 months)
  - 40% of Italians have a filtering system (+20% since 2021)
  - 74% of Italians have a filtering system when the head of the household is between 18 and 34 years old
- ✓ USA (2023 survey):
  - 91% of Americans have a water filtering system (+20% vs 2020)

# Italian Heritage

A SUGGESTIVE TEXTURE TYPICAL OF ITALIAN TRADITION

*Features*

- **Design**

- ✓ Modern shapes with rich glass decoration that emphasizes their *brilliance*.
- ✓ A texture reminiscent of majolica, a great *Italian tradition*.

- **Functionality**

- ✓ *Easy to handle* : from glasses to bottles, every item is designed to ensure a comfortable and firm grip thanks to its curved shape.
- ✓ Airtight caps with *silicone seals* (safe for all uses)
- ✓ Suitable for filling with *sparkling water*

- **Range**

- ✓ Bottles (1 litre and 50 cl) with airtight caps for oil, spirits, water and any other beverage
- ✓ Small bottle (25 cl) with pouring cap, ideal for condiments
- ✓ Carafe (1 l) perfect for any beverage
- ✓ Tumbler (35 cl) ideal for water, juices and cocktails
